

SALES, PRODUCT & ORDERING GUIDE

N-HANCE CANADA ARMOUR GUARD DOORS

PRODUCT OVERVIEW

N-Hance Armour Guard Doors are a brand-exclusive cabinet door solution designed specifically for the N-Hance Cabinet Door Replacement service.

Armour Guard Doors combine purpose-built construction with the N-Hance Multi-Layer Coating System to deliver a high-quality, durable finished product while supporting a consistent and efficient replacement process.

By replacing existing cabinet doors while retaining suitable cabinet boxes, homeowners can significantly transform the style and appearance of their kitchen without the cost, time and disruption associated with a full kitchen remodel.

KEY PRODUCT FEATURES

ARMOUR GUARD EDGE

A protective edge band reinforces vulnerable areas of the cabinet door, improving resistance to chips, dings and impact-related damage during transportation, installation and everyday use.

OPTIMIZED FOR N-HANCE FINISHING

Armour Guard eliminates exposed raw MDF edges, reducing edge preparation and coating absorption while supporting cleaner, more consistent finishing lines.

PURPOSE-DESIGNED INSIDE BEVEL

The inside bevel supports coating flow and finish consistency while creating a clean, refined profile that is easier to maintain.

N-HANCE MULTI-LAYER COATING SYSTEM

Armour Guard Doors are finished using the N-Hance Multi-Layer Coating System for manufacturer-grade finish quality, durability and long-term performance.

MULTIPLE DOOR STYLES

A curated selection of profiles and rail widths provides options for different kitchen aesthetics while maintaining standardized construction and quality.

THE RESULT

A cabinet door designed to be easier and more efficient for N-Hance franchisees to finish while delivering improved edge durability and long-term value for the homeowner.

N-HANCE CANADA ARMOUR GUARD DOORS

SELLING ARMOUR GUARD DOORS

Armour Guard Doors should be positioned as a complete N-Hance cabinet door solution, not simply a replacement MDF door. The combination of Armour Guard edge banding and the N-Hance Multi-Layer Coating System brings together enhanced edge protection with a durable, manufacturer-grade finish designed for long-term performance.

For homeowners, the value is a cabinet door designed to better withstand the chips, dings and everyday wear common in high-use areas, while delivering the consistent, high-quality finished appearance expected from N-Hance. Combined with the ability to select a new door style, Armour Guard Doors provide a significant kitchen transformation without the cost, time and disruption of a full kitchen remodel.

CORE SELLING POINTS

N-HANCE DURABILITY

Armour Guard edge banding protects vulnerable door edges from chips, dings and everyday impacts, while the N-Hance Multi-Layer Coating System delivers a durable, manufacturer-grade finish designed for long-term performance.

SIGNIFICANT TRANSFORMATION

Give homeowners a completely new cabinet door style and professionally finished appearance while retaining suitable existing cabinet boxes, creating a substantial transformation without replacing the entire kitchen.

LESS DISRUPTION

Retaining suitable existing cabinet boxes reduces the time and disruption associated with a full kitchen remodel, while still delivering a dramatically updated look.

LONG-TERM VALUE

A cost-effective alternative to a full kitchen remodel that combines new door styles, enhanced edge protection and the N-Hance finishing system in one integrated solution.

WHEN TO RECOMMEND ARMOUR GUARD DOORS

01

A NEW DOOR STYLE

The homeowner likes their existing cabinet layout but wants to significantly change the style and appearance of the kitchen with a new door profile.

02

EXISTING DOORS ARE DAMAGED

Existing doors are damaged, warped or structurally compromised, while the cabinet boxes remain in suitable condition.

03

CONSIDERING A FULL REMODEL

The homeowner is looking for a significant kitchen transformation but may not need to remove and replace otherwise suitable existing cabinetry.

WHEN TO RECOMMEND REFINISHING

When the existing cabinet doors are structurally sound, the homeowner likes their current door profile, and a colour or finish update is the primary objective, **Cabinet Refinishing should remain the recommended solution.**

N-HANCE CANADA ARMOUR GUARD DOORS

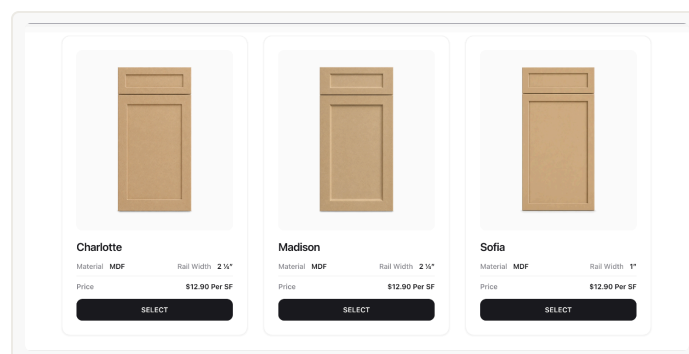

HOW TO ORDER

Armour Guard Door orders are placed directly through **N-Hance Canada Central (NCC)**. The ordering workflow allows you to select your door style, enter individual door and drawer front dimensions, review pricing and order details, and submit the completed order.

01 SELECT YOUR DOOR

From **Order History**, click **+ Start a New Order**. Select the required Armour Guard door style from the available options. Each door card displays the material, rail width and price per square foot.

02 ENTER YOUR ITEMS

Select **Door** or **Drawer Front**, then enter the quantity, width and height for each item. Choose the appropriate measurement format and select **+ Add Another Item** to continue building the order. All items within a single order must use the same door style, material and rail width.

ENTERING FRACTIONS

Enter a whole number, a space, then the fraction. **Example: 12 3/4**

03 REVIEW & SUBMIT

Enter a **Project / Order / PO#** if required and select the applicable Ship Method: Pickup or Shipping. Review the complete order, including door style, quantities and dimensions. Order totals, applicable shipping and taxes are calculated automatically.

SAVE DRAFT

Saves the order in NCC without sending it to AllStyle.

SUBMIT ORDER

Sends the completed order to AllStyle for processing.

IMPORTANT: BEFORE YOU SUBMIT

Submitted orders cannot be edited in NCC. Confirm the door style, quantities and all measurements before submitting. If a change is required after submission, contact AllStyle immediately using the contact information provided within the ordering portal.

AFTER YOU ORDER

Once an Armour Guard Door order has been submitted through NCC, its progress can be monitored directly from **Order History** while AllStyle processes and fulfills the order.

01 ORDER CONFIRMATION

Once your order is placed, **AllStyle will contact you directly to confirm any final order details and collect payment.**

02 TRACK YOUR ORDER

Once submitted, orders can be monitored from **Order History**. Open an existing order at any time to view its current production and fulfillment status.

ORDER PLACED → **APPROVED** → **IN PRODUCTION** → **READY FOR PICKUP / SHIPPED**

03 PICKUP OR SHIPPING

PICKUP

You will be notified once your order is ready for pickup.

SHIPPING

Once your order has shipped you will be provided with tracking information.

NEED TO MAKE A CHANGE?

Submitted orders cannot be edited in NCC. If an order needs to be changed after submission, contact AllStyle immediately using the contact information provided within the ordering portal.
